January 2011	The charity committee approved funding for 25 projects
February 2011	Delivery of the checks
May 2011	Second visit to the 25 projects to check the spendings and collect the bills

## Association des parents – Ecole Cité Dior

### School – KEUR MASSAR

Funding: 1 491 000 – building material / work

Project : renovation and building toilets.

This school is a new application. They have only four toilets in very bad conditions for more 450 students. They want to renovate the old toilets and build six more, and washroom to wash hands. This project is considered as a very high priority.

Ancient restroom girls without water

new restroom girls

## Dispensaire Maria Assunta de Ngohé

### Health Center - DIORBEL

Project : grain mill for their nutrition program

This dispensaire is one of the « dispensaire privé Catholique ». The sisters have settled a very impressive nutrition program. Families are coming from far with malnourished children. A grain mill will help them to spare money, time, and hard work. The dispensaire also has a very well managed maternity, health center and elementary school. They receive help from a french NGO, coeur du monde.

Funding : 1 500 000  
grain mill / local

# Ecole Liberté 1

## School - DAKAR

Project : securisation of the school.

This school is a new applicant. Their project is a high priority as it will improve security for school. These days there is a major security risk for girls especially.

Funding : 380 000 – building material to elevate the wall.

New wall, waiting to be painted

**Project shared with MAERSK  
who will pay  
1 120 000 for windows and  
doors.**

## Ecole Ousmane Sembene

### School - THiaroye

Project : building the school

This elementary school of 530 students has been a long time partner and is also supported by Maersk. They need to transfer the school in a new place as they are on the way of the autoroute. This year should have been a bad time to abandon them !

This private school is located in a very poor area and has some amazing results. We also enjoy working with the Director, who is very efficient and involved in the development of

Funding : 1 500 000

**Project shared with  
MAERSK  
who will pay  
665 400 FCFA for school  
material**

## Entraide Communautaire Dalifort

### Community center - PIKINE

Project : Furniture for the library.

This community center is well organised. They already have a room and a few books on the floor. They need tables, chairs, shelves, and books. There would be a small fee for taking out books, training people to run the library.

This library should be for the whole area and could concern a lot of people?

Funding: 752 000

## GIE Takku Liquey – Personnes Handicapées de la banlieue

**For profit Association of handicapped people - YOFF**

Project : Cereal / coffee transformation

This association of physically handicapped is a new applicant. They are well organized and have strong goals. This project is considered as a very high priority.

Funding: 1 000 000 (1 coffee mill and roasting machine / millet mill)

## Groupe scolaire La Corniche

### School - GUEDEAWAYE

Project : Furniture for the school and handbooks

A new school applicant. Situated in a very poor area. The staff is very motivated.

Funding : 750 000 -desks-beaches

**Project shared with MAERSK who will  
pay  
670 000 for books.**

## Groupe scolaire La Corniche

Old desk

New desk

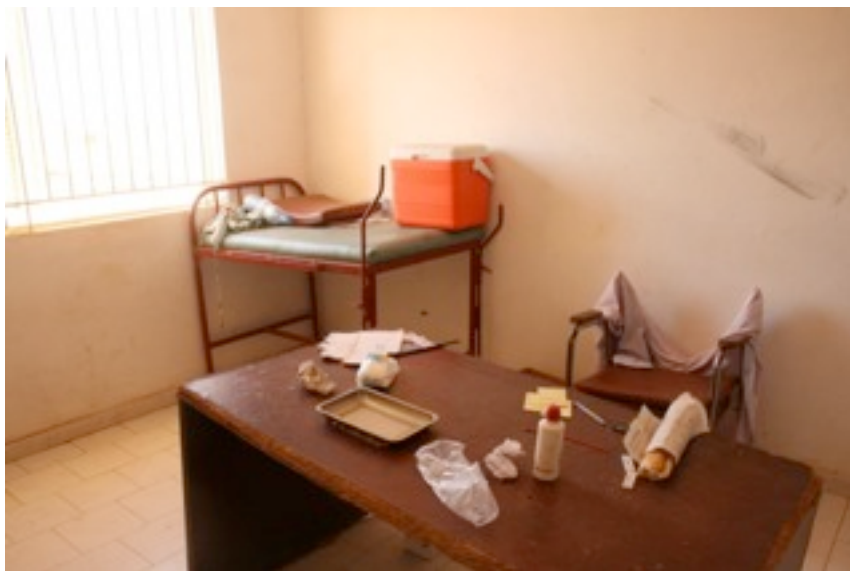

## UDJ – Union pour le Développement de Jaxaay

### Maternity Center – JAXAAY / RUFISQUE

Project : Equip the maternity center

Funding: 1 500 000 – 3 beds, equipment, furnitures + painting and doors

Jaxxay is a new town built especially for the victims of the floodings. Located in a remote area, the health ecenter and especially the maternity center are in really bad shape. The women cannot give birth there have to go further, but there are no taxi coming there. A real maternity is needed. This project is a high priority.

# UNAFRES

## Union Nationale des femmes restauratrices - DAKAR

Project : Opening an experimental training restaurant

This organisation of women want to set up a training restaurant for girls, to train in cooking, management, good hygiene. The restaurants they already run are too small. They are very well organized, supported by Concept, Italian NGOs. The beneficiaries should be numerous, and the project should also been sustainable.

Funding : 1 385 800 – cook materi

## Yaqali Yaakaru Njaboot

### **Association of parents with handicaped children (IMC) - GIEDIAWAYE**

Project : Rehabilitation of a training room

This project will benefits large numbers of children and familieswell organized. Parents are helping with trainings. They have rented a place and are very well organized. They are requesting for chairs, ceiling fans to keep kids cool during treatment and refrigerator to store food and medications.

Funding : 450 000 – tables / chairs / Ceiling fans / Refrigerator

Table, chairs and fans

## AJFT - Association des jeunes de Fass Thiaroye

**Association of young people trying to ameliorate the neighbourhood - PHJAROYE**  
**Project** Garbage collection.

This very motivated and dynamic group is working to ameliorate the environment of the neighborhood. They have already settle a small garden and organise a garbage collection in some area. They want to extend this project, to a larger area, at the request of the people. This project should be sustainable and provide little jobs.

Funding: 1 327 000 – bins, uniforms, gloves, horse, wagon

Uniforms and bins

## Ande Bolo Soukhali

### **Association of women - DAKAR**

Project : Training center for sewing and dyeing

This community-based association exist since 2000 with no assistance. They tie-dye the fabric, sew it and sell it. The visiting team was impressed by expertise and professionalism.

They want to finance tie-dye training, sewing machines, fabric. As medium priority project, it's only partial funding.

Funding : 949 500 - 2 sewing machines / materials

# APHAD – Association Africaine des Personnes Handicapées pour le Développement

## Association for handicaped people - GUEDEAWAYE

Project : reinforcement of their activities

This association for handicaped people have two projects : a sewing unit and a pastry unit. We gave priority to the sewing project that seems more sustainable.

Funding : 450 000 - 2 sewing machines / equipment for the sewing unit

## **ASEMEE – Association pour le Maintien des Elèves à l'Ecole**

### **Private school - GUEDIWAYE**

Project : ameliorate the school

A new applicant. The school will have to move because of the new road. Many children in a small area. Impressive teachers and children.

Funding : 210 000– teacher training / Chalkboards / Desks-benches

**Project shared with MAERSK who will pay  
990 000 for desks-benches and chalkboards.**

## GIE Tackou Fass Diom

### **Women for profit association - YOFF**

Project : Fish transformation / sell

This group of women has different activities. We chose to help them for the fish unit : they dry the fish in Yoff. They also have a cereal unit.

Funding: 250 000 -1 chest freezer for the fish unit

## Keur Yerlandé

### **Association for street children, former talibé**

Project : sewing training center for street boys

Keur Yerlandé is a well organised and useful organisation that DWG has already helped. This is a Talibe street kids program linked with “Ecole Renaissance des sourds” that we also help. Their request has been declined last year because they were no l medium or long term project. This year they have a sewing training program wich could be an opportunity for kids to leave marabouts. They have 35-50 kids a day using meal services, hygiene program.

Funding: 850 000 – 5 sewing machines / 1 table

## PENC Santé Mère -Enfant

### Association of women - PIKINE

Project : sewing training center for young girls.

This association was also funded in 2010 (pots for the cereals) for which the women are very grateful. They are located in a needy area in Pikine, they had to move because of the flood. Their cereal unit seems well working and they want to start a sewing and dyeing activity. They need to improve their old building so it can be used for sewing and dyeing.

Funding: 300 000 – deep freezer

**Project shared with MAERSK (960 000 for construction material and 2 sewing machines ).**

## Perspective Sénégal

### Center for former talibés – KEUR MASSAR

Project : training center for Talibés

Funding : 962 000 – 1 computer and shoe repair material.

A well known organisation that the DWG have often helped before.

They have an impressive compound and are helping boys from 8 to 18. Boys 8-18. A Swiss woman in charge of the association comes once a week. The school and training center is supported by Germany and Switzerland.

**Project shared with MAERSK who  
will pay  
465 000 school supplies.**

# Takku Liquey Ndoubelaan

## Daycare Center - PIKINE

Project : Rehabilitation of the daycare center

Funding : 600 000 – roof / backyard / some furniture

This small daycare center is situated in a very poor area. The building is in vey bad condition and teh roof has absolutely need to be repaired for security reasons. The classroom are empty, with almost no furniture and no toys or books.

DWG are also looking for donations of pencils. paper. tovs...

Tables and chairs

# Association fédérative des ressortissants casamançais de Dakar

## Association casamançais – DAKAR / KEUR MASSAR

Project : chicken farming

This association is a huge federation of women from Casamance living in Dakar, grouped by communities. They put three identical requests in one folder. The charity Comittes decided to try and to only fund one. Two women are going to do the farming but they need a man to help with the heavy work. This project seems sustainable and, with the lack of chicken this could be a money generating business for these women.

Funding : 1 000 000 –Equipment / chicks / chicks food

## Japoo Liquey

### Association of women - GUEDEAWAYE

Project : create a sewing and dyeing unit

This association of very motivated women is located in a poor area.

Funding: 380 000 – 2 sewing machines and material if enough money

# Projects funded by Maersk

**Ecole Renaissance des sourds** : Deaf school – HANN MARISTE

Project : Furniture for the school.

Funding : 1 500 000 – generator, fans, furniture

**CHIFE – Collectif des handicapés pour l'insertion** : Association of handicapped people – HANN

Project : computer training center

Funding : 1 070 000 – Furniture / Computer / printer / screen / UPS

**CGE Ecole Niacourab**

Project : Electrification of classrooms

Funding : 675 000

**Groupe scolaire HLM Pikine**

Project : printer, copier, paper, cartridge, handbooks

Funding : 1 200 000
